

Sprint 3 Plan
Product Name: Clubster
Team Name: Clubsters
Sprint Completion Date: 11/18/18
Revision Number: 1
Revision Date: 11/5/2018

Goal:

Task listing organized by User Story:

(5) As a Clubster user, I want to be able to join clubs I am interested in as well as accept members and admins, so that I can be involved in things that interest me...

- Create Club-Profile UI with join button (1)
- Notification so that an admin can accept a member (2)

(5) As a user, I want to receive notifications when they are sent so that I am consistently up to date on user/club activity...

- Connect backend with frontend (1)
- Navigation with clicking on a notification (2)
- Notification for when important things happen i.e. joining a club (2)

(5) As a Clubster user, I want my profile to represent me so that I can be recognized amongst the pool of users...

- Be able to edit my display picture and user information (2)
- Add pictures to backend and display in frontend (3)

(8) As an admin, I want expenses for my clubs to be connected with the events that I create so that I can manage our budget easily...

- Add expenses to events schema (1.5)
- Create backend functionality for these connections (2)
- Normalize expenses UI with the rest of Clubster (1)

(8) As a member, I want to be able to view clubs and their events so that I know what is going on in the club I am a part of...

- Be able to express my interest/disinterest in attending an event (5)
- Finish UI for event card (1)

(8) As a user, I want all the pages in the app to be designed cohesively so that the Clubster experience is visually appealing and easy to use...

- Make a theme and stick with it (2)
